DEFERRED SUBMITTAL AGREEMENT

Oregon Structural Specialty Code allows a permit applicant to defer certain submittals if approved by Benton County. This form is a deferred submittal agreement for the following project:

Date: _____ Project Name: _____

Project Address: _____ Permit Number: _____

Guidelines:

1. **Approval** – Each deferred submittal shall bear the approval of the design professional in responsible charge. Notation shall be included that the deferred submittal documents have been reviewed and have been found to be in general conformance to the design of the building.
2. **List** – The back of this form is a list of deferred submittals. The design professional of responsible charge must check which submittals are requested to be deferred and indicate an anticipated submittal date.
3. **Fees** – A plan review fee will be added when the deferred submittal is provided for review and approval and will be calculated based on the valuation of each deferred submittal provided.
4. **Timelines** – Every attempt will be made to provide time reviews of 5 – 10 business days.
5. **Work without a permit** – Work that is constructed without have been reviewed and approved by both the design professional in responsible charge and the Building Division, will be considered as work performed without a permit. Any person or firm performing work prior to approval shall be subject to the penalties of working without a permit.
