Unfortunately, no. Application crashes when I try to export it as a .doc, for some mysterious reason (never experienced that before). I'm looking online, and it seems to be a known but rare problem and no one's found a solution... Someone you know with Word may be able to convert the .docx to .doc format for you? – K

Hi Ken,

Is there any way you can send the .doc file for this as well?

Thank you!

Attached in both docx and pdf forms. To be integrated into the next draft of the subcommittee report...

Some ideas at the top of the document about ways forward for this report.

All best,

Ken
